Index to Advertisers Section .....	4
Introduction (including local and state government information) .....	1
Street Guide (Green Section): Union .....	1
Telephone Guide (Blue Section): Union .....	1

The Price & Lee Company is pleased to publish the 1980 edition of the Union City Directory. The City Directory contains household and business information within five major sections.

- I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.
- II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.
- III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.
- IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.
- V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Union community.

## PERTINENT FACTS ABOUT UNION TOWNSHIP

BY MAYOR JAMES C. CONLON

UNION is one of those fortunate municipalities which has struck a happy balance between residential development, business and industry. As a consequence, the township preserves a distinctive suburban air enhanced by commercial development which must meet high standards of acceptability and compatability with the community at large.

Union's greatest asset, of course, is her people. Our population experienced phenomenal growth in the 1920s, 1930s, and 1940s and now has stabilized at a comfortable rate. The 1970 Census puts us at 53,077 residents. This compares to 3,962 in 1920; 16,455 in 1930; 24,735 in 1940; and 51,500 in 1960.

While feverish construction activity marked much of Union's recent past, there is now a more leisurely development reflecting the community's concern with ecology and aesthetics. The Township insists on high standards and gets them. While substantially developed, the township still possesses adequate building space, but regards this land as a public trust and exerts every effort to develop it accordingly.

Geographically, Union is in an ideal location for business and industry. It is part of the New York-Newark commercial hub while actually being on its periphery. The Township offers excellent rail, highway, ship and air linkups. Many prestige businesses and industries have flocked to Union to take advantage of just such a unique combination of advantages. Their citizenship and participation in the affairs of the community has been excellent indeed.

Correspondingly, the Township government has matched the growth of population and commerce with an increase in the quality and scope of its services. Police, fire, health, street, building and other customary municipal departments have kept pace with the burgeoning requirements of a more sophisticated and discriminating public.

And, conversely, the citizens of Union have responded to the affairs and challenges confronting their town with keen interest, active participation and zeal. The youth of Union have never been more positively involved. Churches of various denominations, a wide variety of fraternal organizations and a battery of volunteer groups supplement public work and exhibit excellent public spirit. Area considerations are given attention by neighborhood and local organizations.

Union, justifiably and proudly, is a township of spotless neighborhoods and neat, well-landscaped homes. Civic and residential pride is the watchword. Involvement is a way of life.

Union functions under the township committee form of government which has five members elected by the people. The Board of Education is a separate entity completely. This setup has been ideally suitable. It is simple, flexible, completely representative and quickly responsible. It furnishes the means to translate the wish of the people into action.

# UNION, N. J.

## FORM OF GOVERNMENT

Mayor and Township Committee.

## POPULATION

U. S. Census (1970 - 53,077)

Local estimate approximately 54,000.

## AREA

9.4 sq. miles.

## Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

# Advertisers Who KNOW

---

---

That which makes any advertiser's approval worth while is the prominence he has attained in his particular line of work.

The *advertisers in the Directory* are competent judges on the subject of advertising mediums—the fact that they approve of *Directory advertising* is evidenced by their continued patronage.

# Common Sense

## *About City Directory Circulation*

***The true value*** of advertising circulation is *circulation consulted*.

***To be exact*** by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

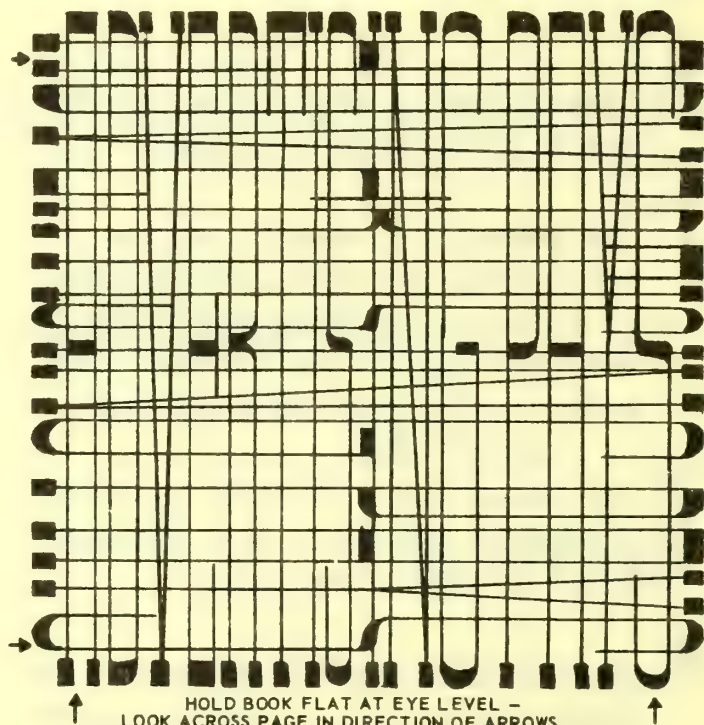

***To be conservative*** we will eliminate the sixty Sundays and Holidays when no tests were made.

***For every thousand directories*** sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore -

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**

**Consultations or  
Circulation Consulted**

the price & lee company

Publishers

NEW HAVEN, CONNECTICUT 06509

# Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

## Our Service Cannot Be Excelled

**Place your ad  
where people spend  
more time than anywhere  
except bed —**

***HOW WE SPEND OUR TIME EACH WEEK (from CBS Research)***

Sleeping	53.2 hours	Reading magazines	3.3 hours
Working	40.0 hours	Listening to records	1.3 hours
Watching TV	26.4 hours	Attending a movie	.2 hour
Listening to Radio	21.2 hours	Reading books	.06 hour
Eating	8.4 hours	Attending a sporting event	.06 hour
Reading newspapers	4.2 hours	Attending a cultural event	.05 hour

**City Directory advertising  
delivers your message in  
the working environment to  
people with money to buy!**

# UNION CLASSIFIED DIRECTORY

## Rapid Contacts for Sales and Service

The Classification of Headings is made in accordance with a Standard List adopted by the Association of North American Directory Publishers to secure uniformity in all Directories, and to promote convenience of reference. The \* denotes headings inserted by special contract or reference to general headings.

**GROWTH  
PROGRESS  
FAME  
PROSPERITY**

*Appeal to the PUBLIC!*

---

Let the **CITY DIRECTORY**  
Give you **PUBLICITY**

---

If you fail to Advertise in the City  
Directory the public loses sight of you.

Ask yourself these questions:

Can I afford to be out of the Public  
Eye?

On whom do I depend?

How can I create a bond of sympathy  
with the Public?

---

*Advertise Your Goods  
That Gives You An Indestructible Asset*

---

Remember, your advertisement in the City  
Directory is before the Public 365 Days in  
the Year

# UNION STREET DIRECTORY

## EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right odd" after the street description indicates odd numbers on right side of street.

The - is used when there is no number assigned to that listing.

"Off" is used to indicate the placement of a house, apartment, business establishment, etc., which is located away from the street.

The symbol \* following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

S Res denotes Summer Residence.

Please note Zip Codes are included in the description of each street and changes in Zip Code for streets with more than one code are indicated at the address where the change occurs.

# **When You Want to Know:**

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.*

## KEY POINTS TO REMEMBER ABOUT CITY DIRECTORY ADVERTISING

### ✓ BROAD AUDIENCE

All kinds of businesses and organizations use the city directory. It would require ads in hundreds of trade and professional journals to match the reach of a single city directory edition.

### ✓ ON THE JOB

City directory ads reach the groups with money to spend - professionals, white collar workers, working wives, young marrieds, etc.

### ✓ REPEATED EXPOSURE

The average city directory is used 3.5 times per day compared to the average telephone yellow pages which are consulted 44 times per year or less than once weekly.

### ✓ LONG TERM

City directory advertising programs run for at least one year giving repeated exposures at minimum cost. The city directory is not thrown away like a newspaper or magazine.

### ✓ WIDE CIRCULATION

City directory ads reach beyond local users for every city directory has state wide circulation. It ranks second only to the dictionary as the most used library reference.

*planning  
is important  
to success!*

Just as you plan your production schedule, so you must plan your advertising. The Directory will give you the most for the least ...include the Directory in your advertising program.

*use*  
**DIRECTORY**  
*Advertising*

## HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

**16% to 18%** Move away or die

**17% to 19%** "New" people move into town or reach listing age.

**26% to 29%** More change their addresses or their jobs or some other vital fact that affects their listing.

*(All that's left that's good)*

Making a total of **59% to 66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

*Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.*

**THAT IS WHY NEW DIRECTORIES MUST  
BE PUBLISHED EVERY YEAR.**

# THE PRICE & LEE CO.

ESTABLISHED 1873
